Summary

I am a MERN-stack developer with over a year of experience, primarily focused on front-end technologies, with the ability to work on the back-end as well. Currently, I am in my final semester of a Computer Science degree and have a strong passion for continuous learning and exploring new concepts

Experience

Decotechs

MERN stack developer

Worked 8 months in Decotechs as MERN stack developer

jamal brother

React js next js

As a frontEnd developer work 4 months

Projects

E-commerce store

🔗 <https://hakthonpro.vercel.app/>

E-commerce website allows users to browse products, view detailed descriptions, and easily add items to their cart for a seamless shopping experience.

Social network

🔗 <https://socailmediaapp.vercel.app/>

Social media app allows users to post, delete, update, comment, like, and share text, videos, and photos. It includes authentication and authorization features for secure user interactions.

Photo Gallery

🔗 <https://socailmediaapp.vercel.app/>

Photo gallery app lets users create folders, save photos, and set privacy options for both folders and individual photos (private or public). Authentication and authorization ensure secure access.

Portfolio
